overlapx

VIDEO STUDIO FOR BRANDS ON X

Videos made for the X timeline.

For crypto brands, products and AI products · overlapx.com

A video studio for brands that market on X.

Motion graphics, AI films and hype edits for crypto brands, products and AI companies. Built to stop the scroll, delivered in 4-5 days, and you only pay once you love it.

Pay when you love it

Nothing upfront. You pay 100% once the video is right.

Delivered in 4-5 days

From brief to final cut in under a week.

Every format

16:9, 1:1, 9:16 and 4:5, ready for X and everywhere else.

Refined until perfect

We keep iterating until you call it done.

X isn't YouTube. We edit for the scroll.

01

The first second decides

On X the video autoplays mid-scroll. We open on the hook, never on a logo sting, so people stop before they decide to.

02

Sound is off

The timeline autoplays muted. Motion and on-screen type carry the story; audio is the bonus, not the message.

03

Built for the feed

Framed and paced for how the timeline crops, loops and autoplays, in every aspect ratio you need.

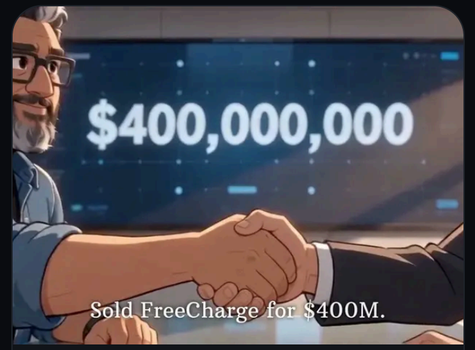

04

Fluent in crypto and AI

Launches, mainnets, token events, product drops. We know the audience and the language, so it lands without the cringe.

WHAT WE MAKE

Every style the timeline rewards.

4 PROJECTS

AI films

Cinematic AI-generated worlds, characters and product shots at a fraction of a shoot's cost.

2 PROJECTS

Motion graphics

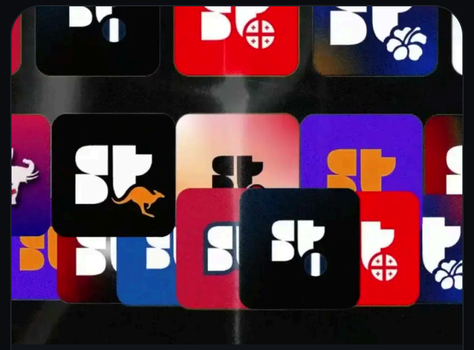

Kinetic type, clean shapes and product UI in motion for launches and announcements.

1 PROJECT

Hype videos

High-energy teasers built to make a launch, mainnet or event feel inevitable.

1 PROJECT

Fast cuts

Rapid, rhythm-driven edits that hold attention second by second.

1 PROJECT

Product, explainers and more

UI walkthroughs, explainers, event promos and anything else your launch needs.

SELECTED WORK

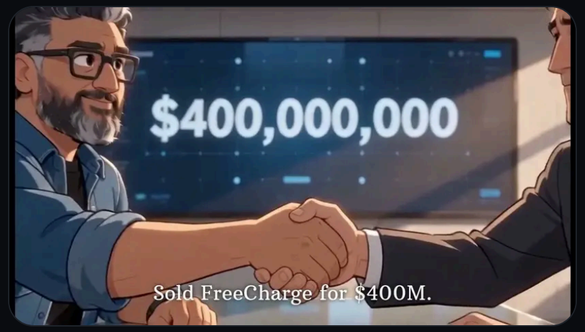

Made to be watched on mute, at speed.

HOW IT WORKS

From call to final cut in 4-5 days.

1

Quick call

Tell us what you're launching and who it's for. One short call is enough.

2

Concept

We write the script and shape the look, so you see the idea before we build it.

3

Production

Design, animation, AI generation and edit, paced for the timeline.

4

Refine

You review, we refine, as many times as it takes to be perfect.

5

Deliver, then pay

Every format, ready to post. You pay once you love it.

WHY BRANDS WORK WITH US

Built for the feed. Zero risk to try.

X-native

We make videos for the timeline, not for a showreel. Hook first, sound off, every format.

Zero risk

You pay 100% only after you love the video. No deposit, no lock-in.

Fast

4-5 days from brief to final cut, so the video lands while the moment is still live.

Fluent in your space

Crypto, products and AI are our home turf. No explaining what a mainnet is.

Clients come back for more.

TELEGRAM

Amazing guys, love it.

Also I will personally order one more motion video, currently preparing script and will share you guys soon.

Happy that we have no revisions also.

Exactly what I wanted.

Thanks for the quick work!

We'll have more videos coming, we'd like to have you work on them.

Someone asked who I worked with on the video, so I gave them your TG handle, in case they reach out to you.
